THE STATES GENERAL OF THE GREEN ECONOMY

2017

THE IDEA

The States General of the Green Economy are a multi-stakeholder process, promoted by the Green Economy National Council, composed by 66 business organisations, in collaboration with the Ministry of Environment and the Ministry of Economic Development. The Sustainable Development Foundation is charged by the National Council to carry out the function of technical support of the initiative.

The aim is to develop, through a "participatory elaboration method", a programmatic platform able to promote a green economy in Italy through the analysis of positive potentials and obstacles, as well as policies and measures needed to improve the ecological quality of the strategic sectors.

The initiative takes place throughout the year thanks to the activity of 9 working groups, it ends with the final presentation of the outputs during an event that will last two days in Rimini, concurrently with Ecomondo, articulated in one plenary opening session, 5 parallel thematic session and one plenary closing session.
